EDUCATION

Stevens Institute of Technology

Hoboken, NJ

Masters of Artificial Intelligence; Concentration: Data Engineering — GPA: 3.92/4.0

May 2026

Stevens Institute of Technology

Hoboken, NJ

Bachelor of Engineering in Software Engineering, Computer Science Minor — GPA: 3.8/4.0

May 2025

Interests: Software Engineering Club, Robotics Club, Launchpad, Hackathon Mentor, [Ansary Competition Finalist](#)

EXPERIENCE

Product Engineer - AI Systems & Full-Stack

August 2026 - Present

Stratus

New York City, NY

- Advanced project budgeting and WBS software with **Microsoft SSO**, shared templates, lifecycle controls, and **Deltek**-ready integrations.
- Architected a permission aware memory platform on **PostgreSQL**, combining BM25/vector retrieval, and cross-encoder reranking to provide intelligent responses based on internal business practices.
- Automated time entry through voice transcription, follow-up validation, and direct Deltek submission.
- Strengthened portfolio-wide reliability through role-based access, **Sentry**, Doppler, **Docker**, DigitalOcean, **Nginx**

Software Developer Intern

September 2025 - August 2026

PVEDI

New York City, NY

- Built a **RAG pipeline** over NYC structural codes, indexing provisions and formulas in **Azure** with lightweight Hugging Face embeddings so engineers could retrieve relevant technical guidance in seconds.
- Enhanced a **Flask** report-generation platform for architectural and engineering projects, reducing the time required to produce NYC-compliant reports by **73%**, with **DigitalOcean** hosting and **MongoDB** data management.
- Developed a project CRM covering contacts, firms, activities, maps, relationship graphs, Outlook calendars, and LLM generated activity records from incoming client emails.
- Built a firmwide service/discovery platform organizing **186 specialties** across 20 service groups and 70 sectors to accelerate project-team selection and proposal development.

Systems Engineering Intern

June 2025 - September 2025

Rees Scientific

Trenton, NJ

- Built an **ML anomaly detection** system leveraging **Azure Stream Analytics**+**ADTK** for sensor monitoring.
- Leveraged **Regex** and **Lisp** for structured parsing of technician inputs, automating creation of programming matrices and **AutoCAD** schematics for hospital electrical systems.
- Consolidated two legacy ERPs, unifying production/order/BOM into a unified **MongoDB** database, building a **Flask** ORM backend with pandas for analytics and **HTMX** for AJAX rendering.

Machine Learning Intern

June 2024 - September 2024

National Science Foundation

Miami, FL

- Integrated **YOLOV8s**, Byetracker, and a custom real-time facial recognition pipeline for drone operations.
- Achieved 92% detection accuracy, to accurately identify, track, and geolocate individuals to emergency services.
- Built reinforcement learning models with a **Deep Q-Network architecture**, trained in **AirSim** simulations.
- Engaged within a cross-functional team of 6 engineers, facilitating sprint reviews and retrospectives.

Embedded & Software Systems Engineer Intern

September 2023 - May 2024

Stevens Institute of Technology; Department of Ocean Engineering

Hoboken, NJ

- Designed a self-sustaining offshore power monitoring system managing software and electrical circuit requirements
- Selected Presenter at the **U.S. DOE Marine Energy Collegiate Competition (MECC)**; presented telemetry system design, hardware architecture, and cost analyses to industry judges.
- Engineered a modular **C++/Python** codebase supporting 4 interchangeable IoT sensors, **RF-based** remote data acquisition (2 km), reducing firmware integration time by **50%**.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL, JavaScript, HTML/CSS, Swift, MATLAB

Frameworks/Tools: React, Flask, JUnit, TensorFlow, MongoDB, Jira, Azure Devops, Keras, PyTorch, CircleCI

Developer Tools: Git, Docker, Google Cloud Platform, Azure AI Studio, Amazon Web Services

Certifications: NVIDIA Deep Learning, Agile Methodology (AT&T), Azure AI Professional (Microsoft), Fusion 360
